**PENALTIES TO BE**  
**ADDED TO TAXES**

City Officials Plan a Change  
in the Time of Tax  
Paying.

Taxpayers who do not pay their taxes  
today will have to pay the 10 percent  
penalty as city assessor Louis E. Be-  
will commence collecting the 10 percent  
penalty tomorrow.

It is hardly probable that an exten-  
sion of time will be granted as it has  
in past years owing to the fact that a  
majority of the citizens will have paid  
their taxes up to the time of assessing  
the penalty.

Mayor Sweeney said this morning:  
"Until we receive the report of the city  
assessor, which will probably be two  
weeks from now, we cannot say whether  
an extension of time will be granted or  
not. If that report shows that a ma-  
jority of the property owners have paid  
their taxes it would not be fair to them  
to grant an extension."

"We know that it works a hardship  
on many to be compelled to pay their  
county and city taxes at the same time,  
and, therefore, we will make a strong  
effort at the meeting of the next legis-  
lature to have the time changed so that  
city taxes will not become delinquent  
until June or thereafter, giving prop-  
erty owners an interval of six months  
between the time of paying city and  
county taxes."

"In order that this may be done it will  
be necessary to change the city charter  
so that the present administration will  
hold over about three months and elec-  
tion will be changed from April to June  
or July, whatever time the fiscal year  
shall end."

**WOMAN SEEKS TO**  
**ESCAPE CENSURE**

Arrested on the Charge of  
Causing Husband's Death  
She Comes to Texas.

St. Louis, Mo., March 1.—To escape  
the vindictive bitterness of the women  
of Kirkville, Mo., where she is charged  
jointly with Dr. James R. Hull for the  
murder of her husband, Prof. J. T.  
Vaughn, Mrs. Alma Vaughn is now on  
her way to Ballinger, Texas.

She will remain there for a time  
visiting a brother of her dead husband,  
George M. Vaughn.

Mrs. Alma Vaughn is under a bond of  
\$25,000 for her appearance in Kirkville  
in May for trial. It is alleged that she  
poisoned her husband.

**SUIT OVER DRAFT.**  
In the first district court today Judge  
Walshall is hearing the case of the First  
National bank of San Francisco vs. the  
First National bank of El Paso, the suit  
being on a \$1200 draft on the American  
grocery company which the bank had  
declined to pay, as the draft had been  
made for a shipment of beans which the  
grocery company refused to accept.

**FINED FOR SCORCHING.**  
Alfonso Martinez fined \$10 which  
he paid in justice Watson's court this  
morning on a charge of scorching his au-  
tomobile on the county road. The of-  
fense was committed Friday when the  
dust was blowing hard, and Martinez  
said he did not know how fast he had  
been going.

**NOTICE TO FAT WOMEN.**  
Presumably you know, ladies, that the  
proper caper nowadays is lines. Curves  
are passé. You have got to take off  
your fat. This must be done in one of  
three ways. By dieting, by exercise, or  
by means of Marmola Prescription Ta-  
blets. The two former will keep you busy  
for months and punish you pretty se-  
verely, the latter will cost you 75 cents  
at the druggist's. The tablets will not  
make any alteration in your diet neces-  
sary, and yet in all probability, before  
you have used up one case, you will be  
losing from 12 to 15 ounces of fat a day.  
Which method do you like the best?

If you fancy this pleasant method of  
getting off the fat, see your druggist  
instantly, or else write the Marmola Co.,  
737 Farmer Bldg., Detroit, Mich., to send  
you a case by mail. These cases contain  
so generous a quantity of tablets that  
the treatment is very economical. It is  
also quite harmless, for the tablets are  
made exactly in accordance with the fa-  
mous Marmola Prescription.

old fashioned chicken pie supper Sat-  
urday night.

**LITTLE JESUS**  
**GARCIA IS DEAD**

Wounds Sustained Beneath  
Train Too Much for Him.

Passes Away.

Little Jesus Garcia is dead. The body  
of the 10 year old lad could not resist  
the mangle received in the train acci-  
dent in Juarez a fortnight ago. He died  
as he has lived since the accident, un-  
complaining of a great pain.

Following the accident the many  
school children of the Mexican city had  
collected a huge amount of money, they  
considered, with which to buy treat-  
ment and artificial limbs, if need be.

Little Jesus was a school boy, and the  
little boys and little girls of the Mexi-  
can schools considered it their duty to  
help. The boy's father was very poor.

But the money is of no use now. It  
was yesterday when the broken body of  
the child was placed in a grave in the  
Juarez cemetery. A sorrowing  
family watched the interment.

But after it was all over, a strange  
thing occurred. Many little children,  
all out of breath, arrived at the grave.  
They had come to the funeral but too  
late, and because their little legs  
could not keep up the pace of the  
horses.

Such was the tribute made by the  
children at the death of a child. They  
did not go too slowly, but the horses  
went too rapidly, it may be said in the  
name of charity.

**HERNANDEZ SAYS**  
**HE IS TROUBLED**

Bull Fight Promoter De-  
clares Somebody Wants  
to Take His Life.

Exhilarated and now bull fight  
promoter, Hernandez, of  
Juarez, believes he has some enemies.  
At least he was assaulted last night,  
and today he wants to become a  
deputy, so that he may carry a "pistol"

and protect himself, he explains.  
Police were called to the home of the  
bull fight manager by the sound of a  
revolver shot last night. The police ar-  
rested William Miller, who with an-  
other American who escaped, assaulted  
the bull fighter, so the bull fighter  
himself says. He had answered a tap-  
ping on his chamber door when it  
started. The revolver noise was made  
by the bull fighter himself.

But William Miller says is a citi-  
zen of some importance. He knows very  
well, he says, many great Mexicans, es-  
pecially Alberto Terrazas, "a very dear  
friend." The police really do not know  
what to think about the matter.

**SENATOR HOLSEY MAY BE**  
**DAVIDSON'S ADJUTANT GENERAL.**

Austin, Tex., March 1.—Senator Hol-  
sey, of Corsicana, visited the headquar-  
ters of R. L. Davidson today. It is un-  
derstood that Holsey is slated for ad-  
jutant general in case Davidson is  
elected governor. Holsey is now a cap-  
tain in the Texas National guard.

## TWO NEW TEXAS RAILROADS

Rock Island Plans to Extend Its Line From Graham  
Across the Panhandle to Roswell; Has Already  
Bought the Rails for the Line, It Is De-  
clared—New Texas Line Chartered.

### Austin, Tex., March 1.—The Texas

North & South Railroad company to-  
day incorporated with a capital of \$36,-  
000. The line will run from Coleman  
to New Braunfels, passing through

Center, Threebunton, Shackelford,  
Coleman, McCulloch, San Saba, Mason,  
Llano, Gillespie, Kendall and Comal  
counties. The incorporators are K. K.

Burgess, L. E. Collins, W. N. Cam-  
eron, W. H. Stephens, J. C. D'Abrell, J.  
A. Miller, B. L. Burgess, W. V. Chapin,  
D. A. Haddleton, all of Coleman.

### Fort Worth, Tex., March 1.—The Rock

Island today announced that it had or-  
dered sufficient steel to extend the  
branch from Graham, in Young county,  
west to Roswell, N. M., also to Stam-  
ford and Haskell.

This indicates that the road has defi-  
nitely decided on the route of the new  
excursions and that construction will  
begin within a month.

The new lines open a new territory  
for Fort Worth which heretofore has  
routed freight to Kansas City and Ok-  
lahoma City.

## PREACHERS DUST AND SWEEP WHILE WIVES FIGHT WHISKY

Chicago, Ill., March 1.—Several score Chicago clergymen of many de-  
nominations swept the floors, dusted, made beds, cooked and washed dishes to-  
day, in order that their wives might devote their time to fight against sal-  
oons. The women met at noon at Willard hall and formed an organization  
that until election day will be active in the campaign for local option.

The agreement of the clergymen to do house work one day and relieve  
their wives of domestic cares came as a result of an appeal by Lucy Page  
Gaston, of the anti-saloon league and Mrs. Emily Hill, president of the Cook  
County W. C. T. U. The fight to make Chicago "dry" grows hotter every  
day and both sides are putting forth every effort to win the battle in this  
spring's election.

One report has it that he had a quar-  
rel with his mother and tried to end his  
life, or at least frighten her; another is  
that it was merely an accident, but  
anyhow, Florence Tyra, 18 years of age,  
is near death's door as a result of a  
bullet wound in his head, self inflicted,  
this morning, at his home on Rosa  
street, Lincoln Park, shortly after 10  
o'clock.

Drs. J. C. Reinschmidt, of East El  
Paso, and assistant physician A. H.  
Butler attended the boy and Dr. But-  
ler probed the wound for a distance of  
three inches. He has expressed the  
opinion that the boy cannot recover.  
The bullet entered the forehead and  
lodged in the brain.

One report is that after a scene with  
his mother, the boy, evidently trying  
to scare her, went to an adjoining  
room, placed the barrel of a .38-caliber  
revolver close to his forehead and fired  
the bullet into his brain, immediately  
losing consciousness.

So close was the revolver to his head  
that the skin was powder burned and  
the barrel of the revolver was spatter-  
ed with blood.

Members of the family who were in  
the front room, rushed in and found  
the boy lying unconscious on the floor.  
They immediately summoned the physi-  
cians and wanted him removed to a  
hospital, but, believing the case hope-  
less, the doctors advised against this  
action and he was permitted to re-  
main in the home.

At noon he was reported as still un-  
conscious but breathing regularly and  
may live for several hours.

**Says Was Accident.**  
Dr. J. C. Keltner, the family physi-  
cian, who was later summoned, said  
over the telephone: "The boy was tak-  
ing the cartridges out of an old gun in  
the kitchen and accidentally shot him-  
self. We cannot say whether he will  
live or not. He is still unconscious and  
in a precarious condition but is breath-  
ing easily."

Ed L. Millican, who resides two doors  
east of the Tyra home, said this morn-  
ing that he had been with the family  
after the shooting and the boy's mother  
said: "My son traded something for the  
gun yesterday and I told him he had  
better be careful with it. He was about  
to start for the house this morning to  
secure some cottonwood trees to set  
around the house and told me he  
would take the cartridges out of the  
gun so if the smaller children hap-

pened to find it they would not hurt  
themselves.

"Then he went into the next room, I  
heard him taking the cartridges out of  
the gun and suddenly there was a re-  
port. My daughter and I ran into the  
next room and found him there still  
standing with the wound in his head. I  
am sure it was purely accidental."

Miller denied that the boy had  
quarreled and said the family assured  
him the whole affair was accidental.

**GEN. MILLS HERE TO SELECT PLANS**  
**FOR NEW SKY SCRAPER BUILDING**

Drew First Map of the City  
and Is the Real Father of  
the Reclamation of the Rio  
Grande Valley.

Gen. Anson W. Mills, accompanied by  
H. B. Stevens and Wilbur Keiblinger,  
Gen. Mills' secretary, has been calling  
on his friends this morning and in-  
specting the plans for the new sky-  
scrapers at the office of Trust & Trust  
with a view to getting suggestions for  
the proposed new Mills building which  
Gen. Mills is going to erect to replace  
the present Mills building on the cor-  
ner of Oregon and Lincoln streets, fac-  
ing the two plazas.

"We are considering plans for a new  
building," Gen. Mills said this morn-  
ing, "but there is nothing definitely  
decided yet. When there is I will let  
you know."

**Drew Map of City.**  
Gen. Mills had the honor of drawing  
the first map of El Paso, the map  
which bears his name and a copy of  
which is now on file at the Carnegie  
library. This map was drawn in 1858  
and shows the streets of the old town  
of that time. To show Gen. Mills' keen  
foresight into the future of El Paso, the  
present Mills building corner was se-  
lected by him as the center of the city  
which was to be. True to his predic-  
tion, the Mills building corner is the  
axis around which the business of the  
city revolves and the new Mills building  
will mark the business center of the  
new El Paso.

**Planned the Dam.**  
Gen. Mills originated the idea of the  
international dam, which recently re-  
sulted in the present Engle dam. Gen.  
Mills planned a dam above the El Paso

smelter to hold the waters for Mexico  
and the El Paso valley and was the  
pioneer in the movement. He has lived  
to see the government recognize the  
importance of his project, only on a big-  
ger scale, to include New Mexico, also  
in its benevolence, and can well be  
called "the father of the reclamation of  
the Rio Grande valley."

**BAD TEETH CAUSE**  
**STUPID CHILDREN**

At Least They Do Not Ad-  
vance in Studies as  
Rapidly as Others.

Chicago, Ill., March 1.—"Children  
with bad teeth require half a year  
longer to complete eight grades in the  
primary schools than do children with  
good teeth," said Leonard P. Ayers,  
of New York, secretary of the Russell  
Sage foundation, speaking before a con-  
vention of superintendents of the Na-  
tional Educational association today.

Mr. Ayers reported some results of  
his investigation into causes and reme-  
dies of retardation in child education.  
Physical defects provided the import-  
ant cause, he said, and he urged co-  
operation for improvement of the  
physique of children.

**HOUSE WANTS MORE**  
**SHIPS FOR NAVY**

Washington, D. C., March 1.—The  
house committee on naval  
affairs today voted for the con-  
struction of two battleships, one  
repair ship, two fleet colliers,  
and four submarines.

## J. R. SEGALL THROWN FROM MOTORCYCLE

Has Left Wrist Broken and  
Is Badly Bruised in  
Fall.

J. R. Segall had a serious accident  
Monday afternoon while riding his fast  
motorcycle down the hill on Cotton  
avenue.

He had his foot on the brake wheel  
when the brake failed and he  
locked, throwing him over the handle  
bars. He struck the ground on his face  
and left side, immediately losing con-  
sciousness. His left wrist was broken,  
the left cheek torn open so that six  
stitches were taken in it, his left knee  
was seriously bruised and he has sev-  
eral scratches about the face. However,  
he is able to be downtown.

**MEXICAN HAS HIS**  
**SKULL FRACTURED**

Another Mexican Is Held by  
the Police on Sus-  
picion.

Filiberto Caytan was taken to the po-  
lice station about 4 o'clock Monday af-  
ternoon suffering from a fractured skull,  
and Dr. Butler ordered him sent to the  
county hospital. According to a story  
told by the father of the boy, who is  
but 18 years old, he was hit over the  
head with a revolver by another Mexi-  
can when they had a quarrel in the al-  
ley on Ninth street between Broadway  
and Oregon streets. Mike Hernandez  
was arrested Monday night and docketed  
as a suspicious character. However, he  
denies having made the assault.

**DIGGING FOR DEAD**  
**IN THE DEBRIS**

(Continued from Page One.)

slide occurred, two are dead and half  
dozen injured. It is not known how  
many more are beneath the wreckage.  
This avalanche is not so extensive as  
the others, but its force was terrific,  
the mountainside being fairly swept  
clean before it.

The fourth slide at the North Fran-  
lin mine, near Burke, played a peculiar  
trick when it descended upon the bunk  
house of the miners. Two men were  
sleeping in one room of the bunk house  
and in the front part of the log struc-  
ture. The avalanche tore the building  
to splinters except the room in which  
the men were sleeping and rushing  
down the mountain, piled up in a gulch  
not a hundred yards from a group of  
cabins containing many miners and  
their families.

**CALLS TILLINGHAST**  
**THE COOK OF THE AIR**

Boston Man Brands as False Asser-  
tion of Another That He Flew from  
Boston to New York at Night.

Worcester, Mass., March 1.—Wal-  
lace E. Tillinghast, the Worcester in-  
ventor, who claimed to have made  
100 ascensions in an aeroplane of his  
own invention, has been denounced  
by J. Walter Flagg, of this place,  
director of the New England Aero  
club, who was appointed by the club  
to investigate the claim of his  
fellow-townsmen.

Tillinghast started the country re-  
cently with a statement that he  
made a flight from Boston to New  
York on the night of Sept. 8, 1909,  
reached an altitude of 4000 feet and  
remained in mid-air 45 minutes while  
the motors were being repaired by two  
mechanics. He refused to give any de-  
tails of the trip.

Tillinghast would give no par-  
ticulars, but promised the New Eng-  
land Aero club to exhibit the aeroplane  
at the Boston Aeroplane show this  
week. He has made no entry and Mr.  
Flagg has made an informal report. Mr.  
Flagg says:

"When I make my formal report  
to the Aero club of New England I  
shall state in substance that I believe  
this man is a fakir; that the claims he  
has made are unfounded, and that I do  
not believe he has made a single flight.  
You may better understand how thor-  
oughly convinced I am of the truth of  
the report I have made when I add that  
Mr. Tillinghast said to me 'I have done  
31 flights in the night and more, I have  
made 100 flights in my machine, and  
more.' He had a chance to give out a  
sensible story, based on scientific prin-  
ciples, and refused to do it."

"At first I had information to lead  
me to believe Tillinghast had invented  
an aeroplane, but I found this to be  
without foundation. After a searching  
investigation I do not find one fact to  
warrant the statement that he has ever  
made an ascension or completed a ma-  
chine, which is what he claims."

Andrew P. Taylor, educational di-  
rector of the Y. M. C. A., who went to  
Tillinghast in connection with the as-  
sociation's department of aeronautics,  
said:

"I know Mr. Tillinghast made some  
drawings for an aeroplane, but that is  
as far as he ever got."

**DISAPPEARANCE OF HORSE**  
**PUZZLES JUAREZ POLICE**

El Paso Resident Is Arrested in Juarez,  
But Is Released When Horse  
Returns to Stable.

It was Saturday when a favorite mare  
disappeared from the stable of Hes-  
tino Slaves, who lives on the out-  
skirts of Juarez.

Sunday found Octaviano Garcia, a  
Mexican resident of El Paso, in the  
Juarez jail. He was arrested on com-  
plaint of the Juarez resident.

But last night the missing mare re-  
turned to the stable of the Mexican  
citizen. And today Garcia, of necessity,  
was released.

"Did that mare steal herself and then  
come back?" is the question which is  
worrying the Juarez police.

**ROADMASTERS OF THE**  
**STATE FORM ASSOCIATION.**

Austin, Tex., March 1.—The Road-  
masters' association was organized  
here last night and Waco was selected  
for the first convention, June 15th. F.  
T. Odum, of Cleburne, was elected  
president; B. E. Mosher, of Palestine,  
vice president; and H. Hanket, of  
Waco, secretary-treasurer.

**CARELESS FIREMAN GETS**  
**FIVE YEARS IN PRISON**

Shreveport, La., March 1.—Lon P. Ir-  
vine, a Kansas City Southern railway  
fireman, was this afternoon sentenced  
to serve a five year term in the peni-  
tentiary on conviction on a charge of  
manslaughter, growing out of a colli-  
sion of a Texas & Pacific train and a  
Kansas City Southern locomotive here  
recently, in which three persons were  
killed.

If troubled with indigestion, consti-  
pation, no appetite or feel bilious, give  
Chamberlain's Stomach and Liver Ta-  
blets a trial and you will be pleased with  
the result. These tablets invigorate the  
stomach and liver and strengthen the  
digestion. Sold by all druggists.
